

CHARITABLE GIFT ANNUITIES

Many of us would like to make a significant charitable gift, while still retaining assets we may need in the future. As a result, we hesitate to make a gift that would bring us so much joy.

There is a way to make a significant gift and receive income in return. It's called a charitable gift annuity.

At the Saint Paul & Minnesota Foundation, we understand your desire to balance charitable giving with your income needs. That's why we've offered charitable gift annuities (CGA) to our donors for decades.

HOW A GIFT ANNUITY WORKS

HOW WE WORK TOGETHER

- 1 Talk with a Foundation Gift Planner about your charitable goals.
- 2 Our experienced staff will create a customized gift annuity calculation to show how much income you would receive and any potential income tax deduction.
- 3 Easily establish your own CGA with a gift of cash, stock, virtual currency or mutual funds.
- 4 You and/or your loved one receives a steady income stream for life.
- 5 A significant gift is established for your favorite nonprofits.

OUR PROMISE TO YOU

- + You will be guided each step of the way.
- + You will work with a local partner who will act in your best interest at all times.
- + Your goals are our goals.
- + You will get more than a transaction. You will get a trusted partner in giving.
- + You will work with a local team who knows the community.

FINANCIAL BENEFITS

- A CGA provides a steady stream of lifetime income for you and/or a loved one.
- Income can begin right away or deferred to a future date.
- Upon creating a CGA, you may be entitled to a charitable income tax deduction.
- At the end of the income recipient's lifetime, the remaining assets are used for your favorite nonprofits.
- CGAs can be funded with cash, stock, virtual currency or mutual funds. These gifts may avoid immediate recognition of capital gain.

How Miriam and Joshua Used a CGA to Create Retirement Income and Support Their Favorite Nonprofits

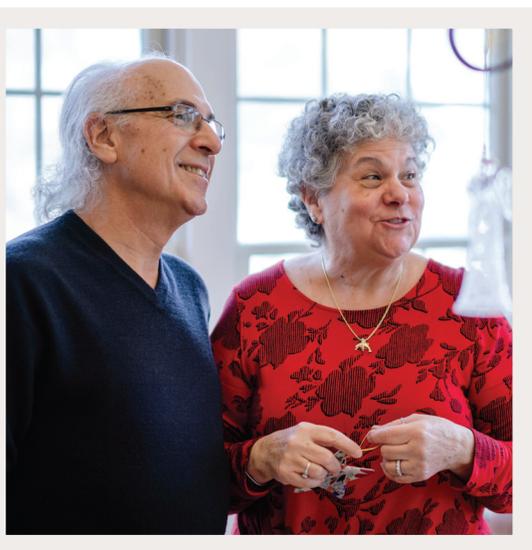

Miriam and Joshua were preparing to retire and wondered if they had saved enough for their dream retirement. They met with their advisors and discussed how to use their sizable stock portfolio in retirement. Selling stocks to create retirement income would create capital gains taxes, so how much should they plan to sell each year?

Their advisors knew that Miriam and Joshua supported several nonprofits, and suggested a plan that would allow the couple

to donate stock to nonprofits without capital gains tax, receive a lifetime income stream and support their favorite nonprofits.

Miriam and Joshua donated stock directly from their investment account to the Saint Paul & Minnesota Foundation to create a charitable gift annuity, which avoided capital gains taxes. They received an immediate charitable income tax deduction as well as a fixed, annual income stream for both of their lifetimes. The tax deduction helped to offset the capital gains on stock they sold themselves.

After they pass away, the remaining assets in their CGA will be transferred to the Miriam and Joshua Eisenberg Charitable Fund at the Saint Paul & Minnesota Foundation, where it will support their favorite causes long into the future.
